EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Development

Remote
July 2017 – Present

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

Cryptoverse — It is a cryptocurrency website that displays the latest statistics of the most popular cryptocurrencies. Users can view the top 10 cryptocurrencies, exchange rates, and more.

- Built with: (JavaScript, React & Redux, Ant Design, and RapidAPI)

EAC Developer Summit — It is about East African Developer Summit held each year in the East African community.

- Built with: (JavaScript, HTML5, and Media Queries)

Memories — It is an application that lets users create accounts, log in with their custom credentials or use a google account. In addition to that, users can create posts, like posts, and comment on posts.

- Built with: (MERN stack, MDBBootstrap, Redux toolkit)

MICROVERSE

Mentor (Volunteer)

Remote
April 2022 – Present

- Mentoring junior web developers, and providing technical support through code reviews.
- Proposing improvements to code organization to improve code quality and overall performance.

EDUCATION

MICROVERSE

Remote Full Stack Web Development Program, Full Time

April 2022 – Present

- Spending 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, Redux and Epress.js.
- Developing skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

DEFENSE ENGINEERING COLLEGE

BSc, Electronics Engineering-Major in Communications.

Sept 2011 – July 2016

- Data Protection & Security: — Learned user data protection and security.
